Objective

To obtain a GIS-focused position where I can apply my knowledge of Geographic Information Systems, spatial analysis, remote sensing, and geospatial data interpretation to support environmental planning, resource management, and data-driven decision-making. I aim to contribute my analytical skills in mapping, spatial modelling, and environmental assessment while continuously enhancing my technical expertise in emerging geospatial technologies and developing innovative solutions for real-world environmental challenges.

Education

M.Sc. Environmental Science, <i>THE MAHARAJA SAYAJIRAO UNIVERSITY OF BARODA</i> 7.9 CGPA	2024 – 2026 Vadodara, India
B.Sc. Environmental Science (Hons.), <i>THE MAHARAJA SAYAJIRAO UNIVERSITY OF BARODA</i> 6.19 CGPA	2021 – 2024 Vadodara, India
HSc, <i>SHREE LAL BAHADUR SHASTRI VIDHYALAYA</i> 69%	2021 Vadodara, India
SSc, <i>UMA VIDHYALAYA</i> 70.33%	2019 Vadodara, India

Skills

Remote Sensing • Landsat image Processing (ETM+, OLI/TIRS) • Spectral Index Analysis • Land Surface Monitoring • Image Enhancement & Classification • Multi-temporal Analysis Hydrology & Watershed Analysis • Watershed Delineation • Drainage Network Extraction • Morphometric Analysis • Linear, Aerial and Relief Parameters • Runoff Characteristics	GIS & Spatial Analysis • Spatial Data Management • Vector & Raster Data Analysis • Geoprocessing (Buffer, Clip, Overlay, Intersect) • Map Composition & Cartographic Design • Coordinate Systems & Map Projections Computer Proficiency • Microsoft Excel • Microsoft Word • Microsoft PowerPoint • Technical Report Writing • Data Management	GIS Software Proficiency QGIS & ArcGIS • Spatial Analysis • Mapping • Geoprocessing • Digitization Google Earth Engine • Cloud-based Processing • Time Series Analysis • Large Scale Data Handling Soft Skills • Analytical Thinking • Problem Solving • Attention to Detail • Team Collaboration • Communication Skills	Spatial & Environmental Analysis • Land Use/Land Cover (LULC) Analysis • Urban Heat Island Assessment • Change Detection Analysis • Spatial Statistics & Correlation Analysis • Trend Analysis • Data Visualization & Thematic Mapping

Research Work

M.Sc. Dissertation, Long-Term Spatio-Temporal Assessment of Urban Heat Island Effects in Amreli District

2026

- Conducted multi-temporal analysis of NDVI, NDBI, LST, and UHI using Landsat imagery from 2000–2025
- Performed LULC classification and change detection analysis from 2000-2025 at 5 years of interval to assess urban expansion and land transformation patterns
- Evaluated relationships between vegetation cover, built-up areas, land use dynamics, and surface temperature variations
- Utilized ArcGIS, QGIS, and Google Earth Engine (GEE) for satellite image processing, spatial analysis, mapping, and geospatial data interpretation

B.Sc. Dissertation, Morphometric Analysis of a Watershed in Chhota Udepur, Sankheda and Jetpur Pavi Talukas, Vadodara District

2024

- Delineated watershed boundaries and drainage networks using GIS-based hydrological analysis techniques
- Computed linear, aerial, and relief morphometric parameters for quantitative watershed characterization
- Analyzed drainage patterns, basin geometry, slope, relief, and runoff characteristics using geospatial datasets
- Prepared thematic maps and spatial databases using ArcGIS for watershed assessment and resource planning

Experience

Environmental Science Intern, GUJARAT POLLUTION CONTROL BOARD (GPCB)

05/2025 – 06/2025

- Assisted in physico-chemical analysis of water samples, including BOD, COD, Ammonical Nitrogen, Total Coliform Fecal Coliform (TCFC) testing
- Supported environmental monitoring activities and sample handling procedures
- Gained exposure to regulatory documentation and consent procedures, including Consent to Establish (CTE) and Consent to Operate (CTO) processes
- Assisted in environmental data recording, reporting, and laboratory documentation

Vadodara, Gujarat

Part-time Employee, Akshar Enviro Control

12/2023 – 12/2024

- Prepared and maintained environmental compliance documentation and record
- Assisted in preparation of CCA applications, Form-4 & Form V reports, and Monthly Environmental Statements (Monthly Patrak)
- Supported environmental reporting and regulatory submission processes
- Coordinated environmental monitoring data and documentation for compliance purposes

Vadodara, Gujarat

Part-time Laboratory Intern, Maxwell Laboratories

05/2024 – 06/2024

- Assisted in laboratory analysis of water quality parameters including pH, TDS, COD, Chloride, and Fluoride
- Supported sample preparation, testing procedures, and laboratory record maintenance
- Assisted in quality control documentation and analytical data recording
- Gained practical experience in environmental laboratory operations and testing protocols

Vadodara, Gujarat

Certificates

- **Esri Academy** — GIS Basics (2026)
- **Esri Academy** — Getting Started with Imagery and Remote Sensing (2026)
- **UNESCO** — Introduction to Climate Risk-Informed Decision Analysis (2026)
- **UNESCO** — Flood Hazard and Exposure Mapping (2026)
- **UN ESCAP Academy** — Introduction to Google Earth Engine and ChatGPT for Flood Mapping (2026)
- **UN ESCAP Academy** — ICT for Disaster Risk Management (DRM) (2026)
- **UN ESCAP Academy** — Realizing Data-Driven Governance (2026)
- **NPTEL SWAYAM** — Remote Sensing & GIS (In Progress)
- **NPTEL SWAYAM** — Remote Sensing: Principles and Application (In Progress)
